# Inspired.
Empowering knowledge.
In motion.

Itoc

We believe enabling is as important as delivering.

"We don't leverage the AWS platform only to transform IT and business operations, we set out to empower and transform culture and people."

Shaun Pearse Co-founder, Itoc

Being creative thinkers and explorers makes us leaders in our industry – we lead by example and light the way for others, especially for our clients and partners. We're passionate about sharing our finds and opening new fields for discussion.

We are a Cloud Integrator and solution company. We are your partner in the cloud.

Itoc helps its clients differentiate and disrupt by architecting, implementing and managing AWS cloud solutions that underpin and drive innovation in their business.

Our clients are ambitious leaders and thinkers, which inspires us to be the same.

The best advice is inspired by potential and guided by knowledge.

That's why we never take any situation at face value, ensuring no stone is left unturned, and every relevant conversation is had.
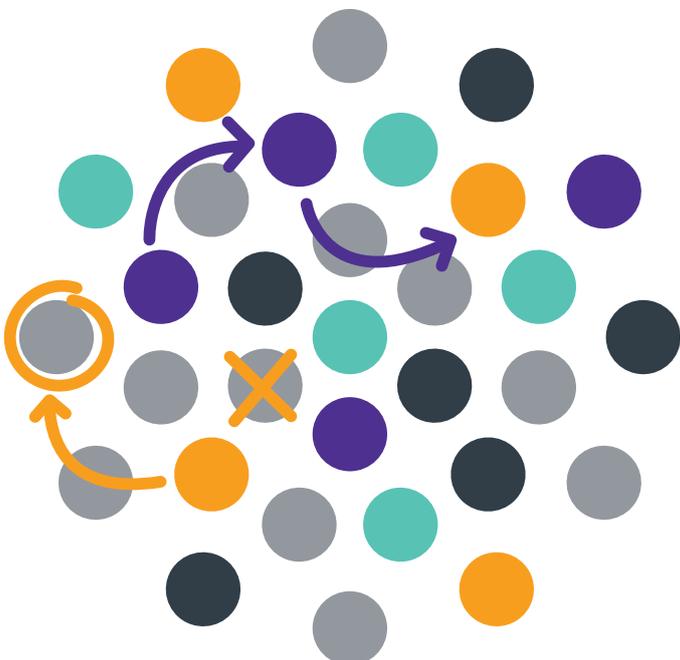

We're invested in our clients, and our industry. We have the experience and expertise to help you deliver outcomes on AWS today, and navigate whatever challenges may be around the corner tomorrow.

As an enabler and thought leader, we're at the forefront of the market shift toward a new way of doing business. We deliver increased agility, speed to market, quality and security through progressive culture, empowering people, effective processes and enabling technology.

**We'd love to hear from you.**

We're different from the rest

We're flexible – we keep our ears and minds open so we stay ahead of the curve. We're focused, not set in our ways, and our methodology echoes this.

We're inquisitive – we love starting conversations because we want to know more about the present, more about the future, and especially more about our clients, the challenges they're facing today, and their future goals.

We're invested – we're passionate about developing insights and intelligence that help us create fully considered, tailored cloud solutions that deliver in the best interests of our clients' brands.

"Itoc has enabled us to compete with the best on a global scale."

Damien King CTO, Guvera

GUVERA★

"CCIQ is about empowering the potential for our members and Itoc has been instrumental to us delivering on that promise."
